Decision items

We decided to create issues for the user stories on Github, which helps to track its progress.

Discussion items

The purpose of this meeting is to improve the user stories that were previously created. We added new tasks to the user stories as well as adding more details to them.

We discussed on what each user story needs to have (a page that can be easily used - layout)

Next meeting agenda

As this meeting was not mandatory for all members to attend, the next meeting will be to update the other member about this discussion.
