Decision items

No decision was made.

Discussion items

We discussed on the back-end implementation. The discussion was about the type of database that will be used in this project for the sign up and login features. Its implementation to the project was also mentioned in the discussion. The use of SQL/Queries is a potential language. However, it is not confirmed yet.

Next meeting agenda

The next meeting will be to inform the rest of the team about the backend implementation and have a further discussion about it.
